AMADEUS

## Order Codes:

**Without Lamp** RATOS

**With halolight, mains, IDS including 2m cable** RATOSHL

**Without lamp** RATOSWT

**With lamp** RATOSWTHL

**Trolley** RATOST

**CONSTRUCTION: The Opera stand** The Opera stand is unique. It was designed from the ground up as an illuminated music stand. The advantage this gives it is that every Opera stand light is designed specifically to work with the music stand. The lamp is held at the right distance from the music tray, and yet is fully adjustable. The light output is carefully controlled so that it falls on the score and nowhere else. The cable is fully managed all the way down to the ground. Storage is provided for excess cable. And the weight, rigidity, and centre of gravity of the music stand are matched to the requirements that a music stand light imposes.

But the Opera stand's uniqueness does not stop with the light. Every detail has been thought through to its logical conclusion. Its offset stem enables the musician to sit comfortably without the stem interfering with his feet. The stands can be nested for compact storage, without having to remove the lamps and without the need for a storage cart. It has an exceptional range of height adjustment. And its thick nylon coating is the toughest available.

Available with Classic or wood music tray. The wood tray is formed in one piece from natural birch and stained to the colour of beech. Stands nest, with or without lamps, for compact storage.

**Accessories** **Microphone Boom** Goose neck locks rigidly to top of stem of Opera and Studio stands. Eliminates the need for separate microphone stand. **Pencil Tray** Locks rigidly to tray. Once fitted, cannot be accidentally removed. **Instrument Shelf** Designed for larger items than the pencil tray. Can be adjusted independently of the music tray. **Trolley** Carries up to 23 stands. Stands are held in position by two hinged clamping bars. Steerable castors can be locked. Measures 174 x 64 cm (69" x 23") **Windcheater** The windcheater consists of a specially formed clear cover which is pulled gently towards the music tray by an elastic strap. When you want to turn a page, just pull the cover towards you, turn the page, and release the cover. Your music will never blow away again.
